shrikantjha

Passionate Frontend developer with a strong background in building scalable web applications and tools.Proficient in **JavaScript**, **React.js**, and Node.js, with a focus on delivering high-impact, reusable components and enhancing user experiences.

EDUCATION

Sinhgad Institute of Technology (July 15, 2018 - July 30, 2021)

BE, Mechanical Engineering

WORK EXPERIENCE

Infosys (October 11, 2021 - Present)

Frontend Developer

- Built **Performant,interactive and reusable components** in JavaScript ,**Reactjs** for an internal CRM tool providing an all-in-one solution for managing customer policies. This internal tool allows users to create, modify, and manage policies, offering a 360-degree view of customer accounts and **reducing IVR calls by 60%.**
- **Worked on Internal Node.js application** for organization-wide use, enabling teams to **send emails, faxes, and messages** to internal and external business customers. The system integrates with Zeta and SFMC, providing a unified communication platform utilized by multiple teams across the organization
- Working on a car selling platform using **React.js** with **integrated AI**, featuring a **conversational AI agent** powered by **DID technology.** The AI agent interacts with customers, answering queries and providing tailored information, enhancing the user experience and streamlining the purchasing process.
- Contributed in fixing issues, adding new features,enhancements using **React.js**

PROJECTS

Shopsavvy-Ecommerce store (September 25, 2023 - October 30, 2023)

shopsavvy ecommerce front store

- Crafted a feature-rich Ecommerce website using **Next.js 13** and **React**, MongoDB cloud delivering seamless user experiences.
- Implemented essential functionalities including user authentication (**login/signup**), intuitive cart management (**add to cart, buy now**), and secure payment integration with **Razorpay.**
- Ensured optimal performance and scalability by utilizing **MongoDB Cloud** for robust data storage and management
